OUR MOBILITY SCOOTERS

TRAVEL SCOOTERS

Folding mobility scooters, as the name suggests, are designed for travel. Depending on the model, a travel-scooter can be folded manually or automatically and usually weighs between 21kg to 28kg. As a general rule of thumb, most travel scooters come standard with a Plane-Safe lithium battery. Upon purchase, you will be supplied with an MSDS (Material Safety Data Sheet) Certificate, which outlines that the battery has been tested and deemed safe for travel on aeroplanes.

PORTABLE SCOOTERS

Portable Mobility Scooters are very popular due to their versatility and for this reason, we stock a wide range of portable scooters from a variety of different manufacturers, with the largest model being able to carry up to 200kg in user weight.

These scooters are all designed to be transported in the boot of your car and are well suited for everyday errands such as shopping, doctors visits or around your local neighborhood.

They are typically equipped with suspension and pneumatic tyres for a more comfortable ride on a variety of surfaces.

MEDIUM SCOOTERS

One of the most popular scooter sizes, medium Scooters offer close to the same comfort as large scooters, and a wide range (up to 40km depending on the model) and weight capacity (up to 160kg depending on the model) to suit most needs. We stock both Kymco and Quingo Scooters in the Medium range and are sure you will find the most suitable model for your needs.

LARGE SCOOTERS

Large scooters, are powerful scooters designed for outdoor use on various surfaces. With larger batteries, higher weight capacities and stronger motors, these scooters are well suited for longer trips, rougher terrain and heavier users.

LUGGIE ELITE A

MANUAL FOLDING MOBILITY SCOOTER • PS5123

\$5,690

The **Luggie Elite A** takes everything people love about the Eco and Standard models and adds even more practicality, strength, and convenience. Designed for users who want higher weight capacity and enhanced performance, this new version introduces a removable chair system that makes transporting the scooter even easier. Like all Luggie scooters, it features the signature 'lean technique', allowing you to load the scooter into your car without ever lifting more than half its total weight. With the added flexibility of a detachable seat, the Elite A offers a smarter, more manageable way to stay mobile wherever you're headed.

LUGGIE SUPER PLUS

MANUAL FOLDING MOBILITY SCOOTER • PS5131

\$6,490

The **Luggie Super Plus** is the big brother of the Elite Plus, offering all the same great comfort and safety features and a larger “body”, which allows a higher weight capacity of 163kg. Like all Luggie scooters, this model features the ‘lean technique’, which allows you to load the scooter into your car whilst never having to lift more than half the scooters weight at one time.

SUPASCOOTA SUPALITE 4

PORTABLE MOBILITY SCOOTER • PS4104

\$4,890

The **SupaLite 4** is the four-wheel version of the SupaLite (three-wheel) scooter. This Australian designed portable mobility scooter is incredibly light, with it's heaviest piece when taken apart weighing just 14.8kg. The short wheelbase on the front tyres offers a surprisingly tight turning circle and a padded seat, adjustable armrests and rear pneumatic tyres mean your ride is smoother and more comfortable.

SPECIFICATIONS

Adjustable Armrests	Yes	Lithium Battery	Yes
Adjustable Backrest	No	Maximum Speed	6.5km/h
Adjustable Seat Height	No	Motor	260W
Adjustable Tiller Angle	No	Number of Components	2 + Battery

SUPASCOOTA SUPALITE

PORTABLE MOBILITY SCOOTER • PS4100

\$4,525

The **SupaScoota SupaLite** is slightly larger than the MicroLite and comes with some additional safety features. The large tyres, great turning circle and padded seat make it well suited for use indoors and outdoors on well paved areas. For increased safety, this scooter automatically slows down when turning, minimising the risk of tipping.

SUPASCOOTA MICROLITE

PORTABLE MOBILITY SCOOTER • PS4080

\$4,320

The **SupaScoota MicroLite** is the smallest and lightest scooter in the SupaScoota travel range of mobility scooters. This 3-wheeled portable scooter is perfect for use indoors and in confined spaces, such as your local IGA. The tires are solid which means they can't be punctured. Folding down your MicroLite and taking it with you is as easy as can be.

KYMCO MINI COMFORT

PORTABLE PULL-APART MOBILITY SCOOTER • PS2000

\$4,059

This **Mini Comfort** is a portable pull-apart scooter that features LED lighting, front and rear suspension and a narrow, lightweight frame. Thanks to its slim frame, front & rear suspension and padded seat, the Mini Comfort is well suited to both indoor and outdoor use on most surfaces. It can easily be dismantled into five easy to manage parts, which makes it ideal for transport in the boot of your car. It is also now available with a lithium battery option which helps reduce the overall weight.

SWEETRICH CAPTAIN

PORTABLE MOBILITY SCOOTER • PS6240

\$2,699

The **Sweetrich Captain** offers a portable and easy to operate mobility scooter. This zippy model also features a handy USB charging port for your phone, a captain style seat with a headrest, cup holders and a front storage basket. When it's time to transport the Captain, simply remove the captain style seat, fold the tiller down and lift the scooter by the front handle and lean it on the lip of your boot. This leverage method of loading your scooter helps reduce the weight of lifting the scooter in half.

QUINGO PLUS

5 WHEEL MOBILITY SCOOTER

The **Quingo Plus** is an upgraded model of the Quingo classic, featuring everything we love about the Classic and the 5-wheel Quingo design plus additional comfort and usability features, such as high and low-speed selection, a broader range and a large adjustable captain seat. The Plus is classed as a medium-sized mobility scooter but can outperform many other large gophers. However, thanks to the 5-wheel design, it still allows for the same maneuverability that you are used to from smaller 4-wheel models.

\$4,850

A compact, comfortable and highly capable mid-size scooter designed for everyday independence. The **Kymco Super 8** delivers smooth handling, great manoeuvrability and a generous travel range of up to 30km per charge—perfect for shopping centres, local errands, parks, markets and neighbourhood travel. Its slim-line frame makes navigating tight spaces and doorways easier, while new pneumatic tyres and full suspension provide a noticeably smoother, more stable ride. The Super 8 also features a full LED lighting package for safe travel and a luxurious adjustable seat with swivel and flip-up armrests for easy access.

MONARCH VOLTA

MEDIUM SIZED MOBILITY SCOOTER • MS5200R

\$4,690

The **Monarch Volta** is a larger mid-size scooter that combines comfort and performance, equipped with powerful electronics and a bigger motor. Built for people who want more power, more comfort and more confidence for everyday travel and on tougher terrain. With its bigger motor, class-leading 120A electronics and large pneumatic tyres, the Volta delivers a smooth, stable ride whether you're navigating suburban footpaths, uneven surfaces or steeper inclines. The Volta's high ground clearance and 12" pneumatic tyres make it ideal for outdoor use, while the powerful 4-pole motor and robust drive-train place it at the top end of the mid-size scooter class.

SCOOTERPAC WEATHER CANOPY

PROTECTS AGAINST RAIN, WIND AND SUN

\$1600

PRODUCT CODE: SA2010 - XL SIZE

SCOOTERPAC WEATHER CANOPY

The Scooterpac is the perfect solution for those who heavily rely on their scooter and wish to use it all year round, rain or shine. The material is a thick waterproof polymer with a lightweight aluminium frame and a windscreen offering high clarity. The windows easily fold down whilst inside, this makes quickly accepting your coffee without getting out of your scooter that much easier. The canopy comes in two sizes and features universal fittings so that it will fit nearly any scooter that's currently on the market.

When not in use, your Scooterpac can be easily stored by folding it up at the back of your scooter. Place the cover over top to keep it safe and clean. You can also use your canopy in hot weather by unzipping the sides and folding them away. This will keep the front and top of your scooter and you protected from the blistering sun.

Using your Scooterpac All Weather Canopy

- Slip off the canopy cover
- Unfold the canopy by extending it over your scooter
- Secure the end of the canopy to the front lower bar of your scooter using the provided strap
- Unfold and zip closed both sides (both doors are already partly attached making zipping them up that much easier)
- Hop in and off you go!
- Unzip your window from inside whenever you like without needing to get out
- Detach the doors entirely during summer for added protection from the sun

Advantages

- Unfolds in seconds
- Keeps you safe from rain, hail, snow or intense sun
- Fold it away in seconds
- High visibility windscreen
- Easy zip-up doors
- Can fold windows down without needing to get out
- Fits nearly any scooter
- Comes in two different sizes with universal fittings

Please note that our all-weather canopy fits most scooters, however, as this accessory adds extra weight to your scooter, we recommend the canopy for medium to large scooters only.

OTHER EQUIPMENT AVAILABLE FROM MOTOBILITY

STAIRLIFTS

A staircase should not stop anyone from continuing to live in their own home. Motobility is the local distributor of world-renowned Stannah Stairlifts in Australia; the safe, reliable and painless alternative to climbing the stairs. Stannah applies a simple design that provides easy operation from the seat mounted joystick or remote control. All stair lifts are fully installed and maintained by our trained technicians.

WHEELCHAIRS & ROLLATORS

Motobility offers an extensive range of lightweight wheelchairs and travel aid solutions, from ultra-portable electric wheelchairs to lightweight manual wheelchairs and easy-fold rollators. Our electric wheelchairs designed to be portable, comfortable, safe and reliable, while our manual wheelchairs deliver exceptional independence and manoeuvrability for active users. Our rollators and walkers provide an affordable and lightweight mobility option. They are easy to use and are foldable, which makes them ideal for shopping and travel abroad.

ADJUSTABLE BEDS

Motobility's electrically adjustable beds are engineered to provide comfort and relief. Our extensive range of beds combines the look and feel of a stylish ensemble with all the health benefits and convenience of an adjustable bed.

LIFT AND RECLINE CHAIRS

Motobility's individually handcrafted Lift & Recline Chairs are made according to your seat size, leg length and the shape of your back with an ergonomic design featuring a full leg chaise to give you the utmost comfort while in a seated or reclined position, and a reliable motor assisting you as you rise from it.

OUR SCOOTER BRANDS

Founded in 1964, KYMCO originally started out as a manufacturer for Honda. With the technical expertise that came from Honda, Kymco quickly became one of Honda's high-quality overseas manufacturing facilities. To further diversify and establish its presence in the device industry, offering electrically operated vehicles such as mobility scooters and power-wheelchairs. Motobility has been awarded the national distributorship of the Kymco range in late 2016.

An innovative supplier of electric wheelchairs and scooters, the E-Traveller has been a leader in design and development. Located in China, the factory boasts one of the largest and newest production facilities, servicing the world with electric wheelchairs. Motobility has been awarded exclusive supplier of the E-Traveller 180, Ergo and Flex in Australia since late 2019.

Solax specialises in providing niche mobility scooters. The Mobie folding mobility scooter was first marketed in 2010 and Solax quickly built a large international company on the back of its lightweight design. Solax continue to invest heavily in research and development. They now manufacture a range of different mobility solutions including an all-terrain mobility scooter.

Freerider has been manufacturing Mobility Scooters for over 20 years in Taiwan. Being one of the first companies in the industry, time has proven that experience, research and development go a long way in manufacturing a quality product.

Quingo Scooters have been available in Australia since early 2017, offering an innovative new 5-wheel approach to the traditional mobility scooters. Quingo is best known for their safety features, postural control and their famous self-loading portable scooter, the Quingo Flyte. Motobility are the only official dealer for this product in Perth.

Heartway mobility scooters and powerchairs are a premium addition to our range. Founded in 1995, Heartway has built a global reputation for world-class manufacturing, delivering reliable, high-performance mobility solutions. Heartway continues to set international standards in power mobility. We are proud to offer Heartway's renowned high quality products to our customers in Australia.
