OUR WHEELCHAIRS AND ROLLATORS

ELECTRIC WHEELCHAIRS

Electric wheelchairs and folding electric chairs have rapidly increased in popularity over the past few years. Our range of electric chairs are all designed to be portable, comfortable, safe and reliable. The E-Travellers offer a variety of different options, allowing you to choose what best suits your needs and requirements.

MANUAL WHEELCHAIRS

Our manual wheelchairs are a great option for anyone who is highly active and who wants serious independence and manoeuvrability. The greatest feature about our manual wheelchairs (aside from being lightweight) is the fact that they are both self-propelled and attendant propelled.

ROLLATORS & WALKERS

Our rollators and walkers provide an affordable and lightweight mobility option. They are easy to use and are foldable, which makes them ideal for shopping and travel abroad.

E-TRAVELLER 140 CARBON

FOLDING ELECTRIC WHEELCHAIR

The E-Traveller 140 Carbon is a lightweight electric wheelchair made from carbon fibre that weighs just 17kg when the batteries are removed. An easy-folding mechanism makes this wheelchair ideal for frequent transport, either in the boot of your car, on a plane or on public transport. The Carbon is ideal for use in tighter confined areas as it has an unmatched turning circle. The 140 Carbon also has a LCD digital panel which can also be controlled remotely using your phone,

HEARTWAY MAXX REHAB

ELECTRIC WHEELCHAIR

Designed with rehabilitation seating, this model caters to users requiring heightened postural support and precise positioning. The inclusion of both front and rear suspension significantly elevates stability, contributing to a smoother and more controlled ride. Furthermore, the wheelchair boasts an impressively low center of gravity, resulting in a lowered seat height. This characteristic not only enhances the overall accessibility of the wheelchair but also underscores its commitment to providing a comfortable and user-centric experience.

SCOOTERPAC FEATHER TRANSIT

MANUAL TRANSPORT WHEELCHAIR • SA2021

The Feather Transit is the lightest wheelchair in the Feather range. Transit has been created for users that may be unable to generate their own movement in a wheelchair. The Transit has ergonomic seating, constructed with super supportive material which evens pressure throughout the body's contact points, and swing away footrests enabling a worry-free entry and exit movement pathway for the user.

The Transit also has braking system handles, located under the push handles. Engaging the locking brakes ensure complete control, security and convenience for the attendant or carer when descending or pausing on a slope.

SMART LIFTER LP

This easy to use portable/travel mobility scooter and wheelchair hoist by Autochair can lift up to 200kg. Using a 4-way crane lift, the hoist keeps a tight and secure handle on your scooter as it gently glides it from the ground into the boot of your car. With over 350 different installation plans, this hoist fits into a vast range of hatchbacks, 4x4's, MPV's, vans and station wagons.

125kg, 150kg and 200kg capacity options

Ideal for lifting wheelchairs and scooters

Fits 350 different types of vehicles

Very easy to use remote

Lift and load in under 60 seconds

HOW THE SMART LIFTER WORKS

- 1 Attach the scooter or wheelchair using the easy to use attachment strap or carabiner hook.

- 2 Press the button to begin hoisting.

- 3 Gently guide your mini scooter or wheelchair as it lifts.

- 4 Ensure that your scooter is past the lip of your boot before disconnecting the hoist.

OTHER EQUIPMENT AVAILABLE FROM MOTOBILITY

STAIRLIFTS

A staircase should not stop anyone from continuing to live in their own home. Motobility is the local distributor of world-renowned Stannah Stairlifts in Australia; the safe, reliable and painless alternative to climbing the stairs. Stannah applies a simple design that provides easy operation from the seat mounted joystick or remote control. All stair lifts are fully installed and maintained by our trained technicians.

MOBILITY SCOOTERS

Motobility offer an extensive range of travel scooters, portable scooters and large mobility scooters from the mobility industry's most reputable brands including Solax, Luggie, Supascoota, E-Traveller and more. Choose from lightweight automatic folding travel scooters, manual-folding scooters, large scooters and portable pull apart scooters.

ADJUSTABLE BEDS

Motobility's electrically adjustable beds are engineered to provide comfort and relief. Our extensive range of beds combines the look and feel of a stylish ensemble with all the health benefits and convenience of an adjustable bed.

LIFT AND RECLINE CHAIRS

Motobility's individually handcrafted Lift & Recline Chairs are made according to your seat size, leg length and the shape of your back with an ergonomic design featuring a full leg chaise to give you the utmost comfort while in a seated or reclined position, and a reliable motor assisting you as you rise from it.

OUR SCOOTER BRANDS

Founded in 1964, KYMCO originally started out as a manufacturer for Honda. With the technical expertise that came from Honda, Kymco quickly became one of Honda's high-quality overseas manufacturing facilities. To further diversify and establish its presence in the device industry, offering electrically operated vehicles such as mobility scooters and power-wheelchairs. Motobility has been awarded the national distributorship of the Kymco range in late 2016.

An innovative supplier of electric wheelchairs and scooters, the E-Traveller has been a leader in design and development. Located in China, the factory boasts one of the largest and newest production facilities, servicing the world with electric wheelchairs. Motobility has been awarded exclusive supplier of the E-Traveller 180, Ergo and Flex in Australia since late 2019.

Solax specialises in providing niche mobility scooters. The Mobie folding mobility scooter was first marketed in 2010 and Solax quickly built a large international company on the back of its lightweight design. Solax continue to invest heavily in research and development. They now manufacture a range of different mobility solutions including an all-terrain mobility scooter.

Freerider has been manufacturing Mobility Scooters for over 20 years in Taiwan. Being one of the first companies in the industry, time has proven that experience, research and development go a long way in manufacturing a quality product.

Quingo Scooters have been available in Australia since early 2017, offering an innovative new 5-wheel approach to the traditional mobility scooters. Quingo is best known for their safety features, postural control and their famous self-loading portable scooter, the Quingo Flyte. Motobility are the only official dealer for this product in Perth.

Heartway mobility scooters and powerchairs are a premium addition to our range. Founded in 1995, Heartway has built a global reputation for world-class manufacturing, delivering reliable, high-performance mobility solutions. Heartway continues to set international standards in power mobility. We are proud to offer Heartway's renowned high quality products to our customers in Australia.
